## CALL FOR SUBMISSIONS AND REGISTRATION

The Mexican Society of Urogenital Sciences A.C. invites you to participate in the proposal of clinical/scientific works within the framework of the 3<sup>rd</sup> National Congress of Urogenital Sciences, which will be held **from October 12<sup>th</sup> to 14<sup>th</sup>, 2022**, in a hybrid format, in the city of Tlaxcala, Mexico.

### PROPOSAL MODALITIES

#### a. Symposia

The topics for symposium proposals are free but focused on the urogenital sciences, must have a duration of 2 hours, have 3-4 speakers (including the organizer) being at least one of them a member of the SMCU. The proposals should be sent by the organizer to the email [smcucongreso@gmail.com](mailto:smcucongreso@gmail.com), accompanied by a summary indicating the title, name of the speakers and title of the presentation by each participant, as well as a brief review of the proposed symposium. The proposals will be evaluated by the Scientific Committee, which will send a notification of approval. If it is accepted, the corresponding abstracts will be requested from each participant.

***The deadline for submitting proposals for symposium is July 16<sup>th</sup>, 2023.***

#### b. Basic or clinical research, both oral and poster presentations

Abstracts for oral or poster presentations must be in the research area of urogenital sciences and written in English or Spanish. Some topics are:

Pelvic Floor, Sexual Physiology	Reproduction
Micturition	Behavior
Reproductive Organs	Neurourology
Nerve Regeneration	Upper Urinary Tract
Urinary incontinence	

Abstracts should be sent to the email: [smcucongreso@gmail.com](mailto:smcucongreso@gmail.com)

Authors, whose papers are accepted in an oral session, will be allocated 10 minutes for their presentation. The date and time of your participation will be informed with opportunity.

**The deadline for receipt of abstracts is August 16, 2023.**

**Full program can be accessed on the website <https://www.smcurogenital.org>**

### Information about abstract format

1. Should report original research, with proper writing and spelling. Papers must not have been presented at other conferences or be published.
2. Language. Text must be written in either Spanish or English.
3. Typography and format: Arial font of 11 points, single space, with space between sections.
4. Margins: upper 2.54 cm, lower 2.54 cm, right 2.54 and left 3.8 cm, with justified alignment of the paragraphs.
5. Length. A minimum of 200 and a maximum of 300 words, excluding the title, authors, affiliations, and source of funding. A figure or table can be included, each element will count as 40 words. The figure legend should be concise to describe the figure, use Arial 10 font.

6. Authors. All authors of the work must be aware of submission and have reviewed the abstract.
7. The Scientific Committee of the meeting reserves the right to withdraw any abstract that does not meet the requirements described above.

**Specific sections:**

The title and name of the sections (background and objectives, methods, results, and conclusions) should be highlighted in bold.

**Title.** Should describe the content of the presented work, without abbreviations. The length should not be excessive or fully written in capital letters.

**Authors.** Place the name of the authors, starting with the main author, who will also be responsible for presenting the work. Place the first name followed by the surnames. Place superscript numbering to indicate the institutions of affiliation. Indicate with an asterisk the SMCU associate who endorses the work. After each author indicate corresponding affiliation(s).

**Affiliations.** Each affiliation must be preceded by the corresponding superscript number and include Department, Faculty or Research Center, Institution, City, State and Country.

**Introduction and objectives.** Briefly describe the background that supports the hypothesis to be tested. Define the hypothesis and objectives.

**Methods.** Describe the experimental design, techniques and statistical analysis used. Also indicate the use of laboratory animals according to bioethics guidelines. In case of Clinical Research, the approval of the project by the Institutional Committee or the corresponding board.

**Results.** Accurately and concisely describe outstanding results.

**Conclusions.** Describe the interpretation of the data presented with respect to the hypothesis defined in the Introduction. Discuss data in a general context and perspectives. Be careful to consider support for the hypothesis only if the results are statistically significant,  $p < 0.05$ .

**Source of financing.** Include the support obtained for the execution of the Project from which the data presented emerge. Indicate the number of project and institution, also the scholarship number of participating students.

**Looking forward to welcoming you to Tlaxcala!**
